About

Highly skilled Full Stack Developer with expertise in both backend and frontend technologies. Experienced in PHP and MySQL from my role at 72 Dragons Pvt Ltd, Hong Kong, where I developed and optimized server-side applications. Proficient in React and Node.js, enabling me to create seamless and dynamic user interfaces alongside robust backend solutions. Strong problem-solving abilities, a commitment to clean, efficient code, and a passion for continuous learning in the evolving tech landscape. Proven ability to collaborate effectively within cross-functional teams to deliver high-quality projects.

Work Experience

- **Backend Developer**

72 Dragons Pvt Ltd, Hong Kong

Mar 2024 - present

Milestone Tracker Tool: Developed a comprehensive tool to track project updates and milestones, ensuring accurate and timely project management. Integrated robust backend logic with a user-friendly interface to streamline team collaboration and project tracking.

72 Dragons Cannes Website: Played a key role in creating and launching the official website for 72 Dragons Cannes. Collaborated closely with the frontend team to ensure a seamless and visually appealing user experience while maintaining backend functionality.

- **Intern**

The Spark Foundation

feb 2023 -mar 2023

Basic Bank System Website: Designed and implemented a website to manage bank transactions and generate balance statements for customers. Focused on secure handling of financial data and providing an intuitive user interface for smooth banking operations.

Projects

Blood donors management system website

May '2023 - Jul'2023

the objective of this project is that can help patients who are blood at a particular location, the project aim to store & manage the information of blood donors & provide the blood donor near the patient's location

- technology :- Html ,Css, JQuery, Php, Mysqli
- The website enabled users to **search for blood donors near their location** based on blood group, availability, and distance, and to **register as donors** by providing their personal and medical information.
- you also register yourself as a donor.
- Achieved a **90% satisfaction rating** from the project supervisor and the end-users for the website's performance and impact.
